Projects

JAN-2023 **HOLIDAY HOTEL BOOKING WEBSITE.** **Link**
This is a multipage hotelbooking website. I created it using **Django python** for backend bootstrap for frontend also here is a feature to search for train from irctc which is used using api.
Nov-2022 **MULTIPAGE VEGETABLE STORE WEBSITE.** **Link**
this is a full fledged frontend responsive online vegetable shop website it has multiple pages like home, products and contact **Html css javascript bootstrap Lightbox** .
AUG-2022 **FULL STACK BANK WEBSITE.** **Link**
This is a **fullstack multipage** website. In this website I have used **html css and js** for frontend and **php mysql** for backend here users can login then he get the access of admin dashboard where he can see the details of borrowers and depositors .
DEC-2022 **Resturant Website React** **Link**
This is a **singlepage fully responsive** Resturant landing page which I created using **react.js** as major and also use **html css js bootstrap** for minor functionalities.
